

Machine Specifications

- Generator Size - 10kW to 150kW
- Press Width - 20" to 60"
- Press Length - 48" to 240"
- Press Height - 1" to 12"

Optional Equipment

- Glue Applicator
- In-feed, Out-feed
- Automatic Tuning
- Automatic Curing

We can customize for your specific requirements.

EG Series of Edge Gluers

Speed Production With Radio Frequency Curing

Reduce your labor costs and increase production with our advanced RF gluing systems.

RF cures glue lines more uniformly and more quickly than other heat sources such as radiant heat. This offers significant advantages for edge and face-gluing applications:

BENEFITS

- Fast and Uniform Temperature Rise
- High Production Rates
- Environmentally Clean
- Safe and Easy to Use

APPLICATIONS

- Flooring
- Kitchen Cabinets
- Furniture
- Windows and Doors
- Laminated Beams
- Special Applications
