

RfsProtech Slat Bed Press SB 240 x 50 x 2

The Slat Bed press is a heavy duty edge and face laminating system. The press features hydraulic side and top pressure capable of exerting up to 200 PSI on the product being pressed. The press is equipped with a Radio Frequency generator for rapid and accelerated curing of the glue joint.

Features & Specifications

Touch screen HMI

Radio Frequency Generators from
20 KW to 200 KW

RF Auto Tune

RF Auto Cure

Hydraulic or Pneumatic pressure
according to material thickness

Optional Slide out top platen

Optional in-feed

Optional out-feed

Optional glue extruder

Optional material handling

Press Length = 240" (other lengths
available)

Press Width = 50" (other widths avail-
able)

Press thickness = 2" (other thicknesses
available)
